**GENERAL ENQUIRIES:**

Alex Lyus / On Q Event Management  
Sydney , Australia  
[alex@onqevent.com.au](mailto:alex@onqevent.com.au)

This conference focuses on all aspects of cybercrime and incident response including intrusion investigations, cyber crime laws, digital evidence, information assurance, as well as the research, development, testing, and evaluation of digital forensic tools.

The goal is to prepare attendees for the new cybercrimes of today and the near future. Speakers will discuss new approaches and new perspectives.

This event will be held in Sydney on May 19th & 20th, 2011. It focuses on bringing together cybercrime experts, forensic scientists and other cyber experts primarily working in the field of Information Security and Criminology as well as other allied subjects. The event will demonstrate the latest advances in the field of cyber - organized crime and will discuss cybercrimes, digital evidence, fraud in cyberspace, cyber security, infringement and enforcement of IPRs and internet jurisdictional issues.
